
Overview

The Valley Hospital Laboratory has served the outpatient laboratory needs of our community since 1950. Our clients are varied, and unique, and special attention is given to each client with the goal of exceeding their expectations for service.

The Valley Hospital Laboratory is affiliated with Mayo Medical Laboratories in Rochester, Minnesota. Most of the testing occurs in The Valley Hospital Laboratory's state-of-the-art facility, and results are generally available the same day. Many clients are integrated with our computer system, and it is our goal to make computer accessibility available to all. The Valley Hospital Laboratory is closely linked with Mayo Medical Laboratories, to which many special tests are sent. Our partnership with Mayo Medical Laboratories greatly enhances our capabilities and provides world-class expertise to our region.

As The Valley Hospital Laboratory moves forward, our staff remains committed to providing laboratory services which are second to none. We are grateful for your trust, and we will remain dedicated to providing excellence in laboratory testing.

Cordially yours,

Robert Mazziotta, M.D.
Director of Pathology and Laboratory Medicine
